Seattle Children's
HOSPITAL · RESEARCH · FOUNDATION

Dear Supporter,

On behalf of the Seattle Children's Autism Center, we are writing to thank you for your donation to the *Festival of Trees Annual Gala & Auction* on Saturday November 19, 2016 at the Fairmont Olympic Hotel.

The Festival of Trees 39th annual event will be held at the Fairmont Olympic Hotel Saturday November 19 – December 2, 2016, with the gala taking place Saturday evening. In addition to the gala, over 20 beautifully designed trees are on display, with each one dedicated to a child that has received services at Seattle Children's Hospital. The picture and the stories are beautifully composed and touch all who read them.

Today, it is estimated that one in every 88 children is diagnosed with autism, making it more common than childhood cancer, juvenile diabetes and pediatric AIDS combined. In 2009, Seattle Children's Hospital opened its world-class Autism Center to provide comprehensive and timely autism services to patients, regardless of ability to pay. Since its inception, the Autism Center has served over 1,200 children with Autism and their families. Presently there are over 1,500 families on the Autism Center's waitlist for diagnosis and services, many of whom must wait over eight months for treatment.

Operating this world-class Autism Center is vital, yet expensive. It cannot be done without community support. Last year's auction grossed nearly \$500,000, your support will help us surpass this goal. Enclosed you will find a procurement form for your convenience. If we can provide you with additional information, please contact our gala director Suzanne Hight at (206) 236-6167 or suzanne.seattlechildrensautism@gmail.com.

Thank you for helping children and families living with autism in the Northwest region.

Sincerely,

The Autism Center Guild

The **Autism Center Guild** and the **Dr. Forrest L. Flashman Guild** have joined with the goal of bringing the passion and talent from both guilds together for two magical events. The proceeds provide support for Seattle Children’s Autism Center and Uncompensated Care.

About the Autism Center: In August 2009, Seattle Children’s opened its Autism Center to provide comprehensive and timely services to autism patients. The Center is programed to provide a full range of family-based care from early childhood through young adulthood (birth to 21 years old). The Center is able to draw on the medical research expertise of a nationally recognized children’s hospital, while also providing necessary treatment, family support and therapy options tailored to address the evolving personal needs of each patient served.

About Uncompensated Care: Seattle Children’s provided \$111.8 million in uncompensated care in 2015. The fundraising efforts of the guilds is a vital source of uncompensated care contributions, helping keep its founding promise to the community – caring for children in our region regardless of ability to pay.
